CARRER OBJECTIVE

Motivated MCA (AI & ML) student with strong analytical and problem-solving skills seeking an opportunity to contribute to business operations and data-driven decision-making. Eager to utilize knowledge of data analysis, communication, and process management to support operational efficiency and organizational growth.

EDUCATION

Master of Computer Applications (Artificial Intelligence & Machine Learning)

Chandigarh University, Gharuan, Punjab

Session: 2024 – 2026 | CGPA: 7.93 (Pursuing)

Bachelor of Computer Applications

Guru Nanak Dev University, Amritsar, Punjab

Session: 2021 – 2024 | CGPA: 7.83

Intermediate (CBSE)

Dr. MCM DAV Public School, Pathankot, Punjab

Session: 2020 – 2021 | Percentage: 81.2%

Matriculation (CBSE)

St. Joseph's Convent School, Pathankot, Punjab

Session: 2018 – 2019 | Percentage: 73.33%

TECHNICAL COMPETENCIES

- **Programming:** Python, C/C++, Java, C#, ASP.NET
 - **Data & Analytics Tools:** SQL, Power BI, MS Excel
 - **Technologies:** Artificial Intelligence, Machine Learning
 - **Design & Tools:** Figma, Visual Studio, Apache NetBeans
 - **Database Management:** SQL Connectivity, CRUD Operations
-

INTERPERSONAL SKILLS

- Communication and Presentation Skills
- Team Leadership and Collaboration
- Problem-Solving and Analytical Thinking
- Decision Making
- Time Management and Organization

INTERESTS & HOBBIES

- Practicing Yoga
 - Cooking
 - Playing Badminton
-

INTERNSHIPS

- **Academic Counsellor – Coding Ninjas**

July 2025 – November 2025

- Guided students regarding courses in Data Science and Data Analytics.
 - Explained concepts and applications of Excel, SQL, Power BI, Machine Learning, Artificial Intelligence, and Generative AI.
 - Communicated with prospective learners to understand their career goals and recommend suitable learning paths.
 - Developed strong communication, presentation, and stakeholder interaction skills.
-

PROJECTS

1. Student Grade Predictor

- Developed a Machine Learning model to predict students' final grades based on academic inputs and performance factors.
- Applied data preprocessing and predictive analytics techniques.

2. Employee Management System

- Built a Java-based project using Apache NetBeans with SQL database connectivity.
- Implemented functionalities to store, update, and manage employee data efficiently.

3. College Management System

- Designed a website using C# and ASP.NET in Visual Studio.
- Developed backend functionality and implemented CRUD operations to manage institutional data.

4. Customer Shopping Behavior Analysis

- Designed interactive dashboards using Power BI to visualize and monitor key data insights.
- Analyzed and processed data using Python and MySQL, integrating both with Power BI to perform data extraction, transformation, and visualization for better decision-making.

5. Starbucks Website UI Design

- Designed a Starbucks website prototype using Figma, focusing on a clean and user-friendly interface.
 - Added interactive components like Add to Cart, quantity controller, and product browsing to simulate an e-commerce experience.
-

CERTIFICATES AND AWARDS

- AI for Entrepreneurship – Intel Technology India Pvt. Ltd.
 - ReactJS Certification – Infosys
 - Use Generative AI for Software Development – IBM
-

EXTRA CURRICULAR & CO-CURRICULAR ACHIEVEMENTS

- Participated in multiple debate competitions during school and college.
- Hosted school programs and events, enhancing public speaking skills.
- Served as TPP CR (Training and Placement Program Class Representative) during the 2024–25 session.
